

**Advanced features**

**Multi functions**

**2-IN-1**  
**Proximity card reader**  
**Digital code keypad**

**3-Operation mode**

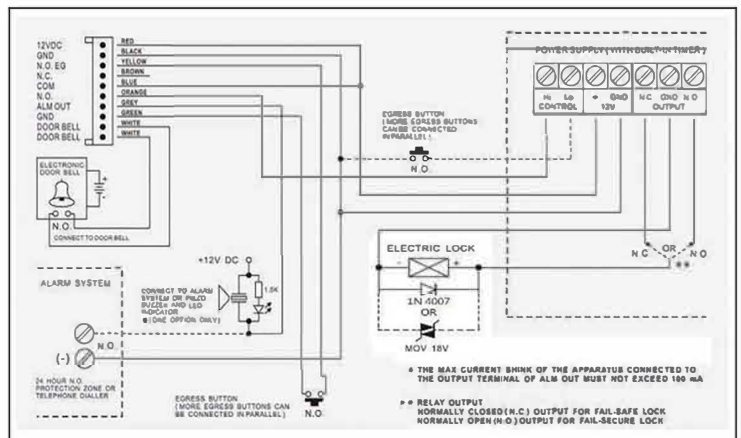

**Model: AC-868**

**Technical parameter:**

Dimensions:112Lx84Wx25D(mm)  
Operating Voltage:12V DC  
Current Drain:Quiescent State = 22mA,  
Active State=72mA(Relay actuated,all LED lighted)  
Relay Output Contacts:N.O. and N.C. Dry Contacts,  
Max Rating of Contact Current 2A / 24V DC.  
Capacity of Recording:250 ID Cards, 250 Codes or  
1 Common Code.  
Card Reading Distance:Max Distance 10 CM  
Type of ID Card:EM Card, 125 KHZ  
Weight:0.12kg

**Wiring Diagram:**

**Features and functions:**

- Simple Programming,Easy Operation
- 3-Operation Mode:
  - ID card operation
  - Password operation
  - ID Card + Password Operation
- 1 Relay Output
- 250 Users
- Multi User Code or Single Common User Code Operation
- Operates Fail-safe or Fail-secure Electric locks
- Auto Code Entry or Manual Code Entry
- Keypad Blocking for 30 Seconds After 10 False Entries
- Tamper Beep Available or Tamper Beep Disabled
- Tamper Warning Output
