

AC-333 RFID Card Access Controller

Product features

- Operating Voltage: 12VDC
- User:1000
- Operation Mode: Card , Digital Code , Card + Digital Code
- Current Drain: <30mA
- Simple Programming, Easy Operation
- Adopt function steady card reader of blocks
- Keypad Locks for 30 Seconds After 10 False Entries
- Can be Connected with Door-open Button and Doorbell
- Non-volatile Memory in Power Failure
- Tamper Switch can be Connected to Security Alarm System

Technical parameters

Operating Temperature: -20°C-60°C

Operating Humidity: 10%-90%

Dimensions: 110Lx87Dx31W(mm)

Weight: 0.18kg

Standard Packing: 70pcs/box

Products types

Card style	frequency	Reading range
EM	125KHz	5-15CM
MIFARE	13.56MHz	3-10CM

System Connection
