

AC-5000V6 guard tour reader is an upgrading product on the basis of AC-5000V+guard tour reader. Apart from the features of AC-5000V+, AC-5000V6 is able to read 2.4G RFID tag in the distance ranging from 10 meters to 100 meters except reading the normal RFID tag whose working frequency is 125KHZ in the distance ranging from 3cm to 5cm. By pressing the button on the reader, the AC-5000V6 reader is switched to read 2.4G RFID tag. Moreover, AC-5000V6 communicates with computer through 2.4G communication station without inserting in. Put the reader beside the communication station which is connected with computer by USB cable in the range less than 10 meters, the data in the reader will be downloaded to computer. Additionally, battery of AC-5000V6 is chargeable without opening the reader. Insert the reader into the communication station which is connected with electric power, the battery will be charged.

AC-5000V6

NEW

Features

- Super durable, complete water-resistant
- Capacitance touch key-press which is indestructible
- Read two kinds of RFID cards:
 - 125KHZ RFID card, reading distance 3cm to 5cm;
 - 2.4G RFID card, reading distance 10m to 100m
- 2.4G RFID card needs power supply
- 2.4G wireless communication, 0m-10m
- No need insert reader to communication station when transferring data to computer
- Battery is rechargeable

2.4G station

2.4G card

Guard ID card

Cylinder RFID tag

Luminous label RFID tag

Round shape RFID tag

Event wallet

Technical Information

Physical: Metal body, molded rubber shell
 Working Frequency: 125KHZ, 2.4G
 Operating Temperature: -40°C to +85°C
 Humidity: 10% to 98% non-condensing
 Memory: 4Mb flash ROM, 50000 pieces records
 Battery: 3.7V rechargeable Polymer battery
 Signal Card Detection: Auto induction card-reading
 Card Reading distance: 3cm-5cm, 10m-100m
 Communication: 2.4G wireless communication
 Dimensions: 130mmx40mmx29mm
 Weight: 173g

Communication (0m-10m)

Battery charging

Applications

- Security guard patrolling
- Building guard patrolling
- Community guard patrolling
- Time & Attendance monitoring
- Incident report & meter reading
- Policeman patrolling
- Military patrolling
- Nurses' daily round
- Remote equipment inspections and maintenance

Software			

Management Software

Multiple versions: uniprocessor version/local area network version/B/S network version

Multiple languages: any language is available

Multiple changes: software can be compiled according to customer's requirements

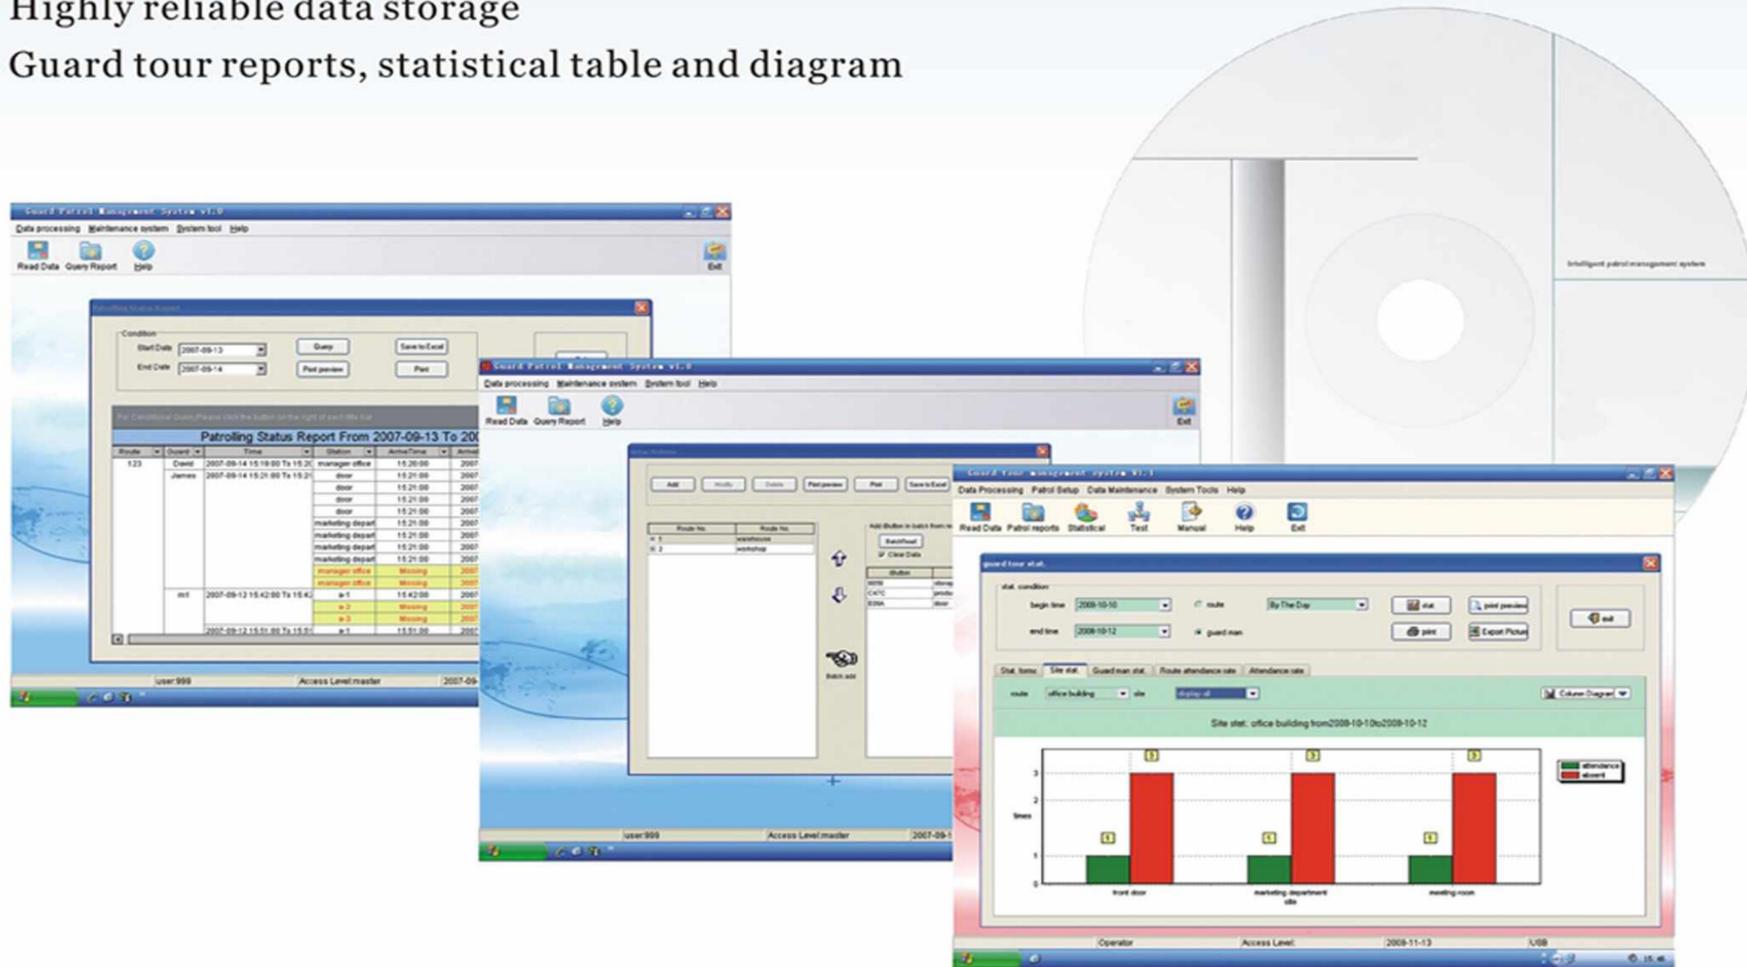

Features:

Easy and fool-proof operation

Intelligent design of tour time plan

Highly reliable data storage

Guard tour reports, statistical table and diagram

Application Fields

-  Guards patrol monitoring in shopping malls, supermarkets, hotels, buildings, factories, and blocks etc.
-  Guards patrol monitoring in schools
-  Nurses' daily round
-  Airport departure lounge and runway checking
-  Forest fire control and safe patrol
-  Power transmission cable checking and management
-  Oil pipeline checking and management
-  Patrol police tracing and management
-  Frontier patrolling soldier tracing and management
-  Telecom fiber cable checking and management
